

- A. Open COMPETITIONS, select *Upcoming* and chose your event.
- B. This page will give you some basic information as seen on this screenshot. The first thing that you will notice is the conflicting information at the top of the screen – *ignore the top line*, in all events the competition format will be shown in white text on line two. Further details of the event can be found in the RULES and NOTES sections. To enter the competition, scroll to the bottom of the page and select the **Enter Competition** box. You will now be presented with the available tee times.

- **NEW TEE TIME** - Choose your preferred time and you are entered. You now have the option of entering your teammates (if it is a pairs competition the next player entered will be your partner). You may enter up to four players, then press the Done/Skip button and entry is complete.
- **JOINING AN EXISTING GROUP** – The process is the same as above, but you will only be able to enter the number of players equal to the spaces available.
- **WITHDRAWING** – Should you need to withdraw from the competition, return to **COMPETITIONS > Upcoming** and select the event. At the bottom of the page under **ENTRY** will be details of your entry and a **Withdraw** box (see below). Select this and follow the prompts. You cannot remove any other players, either accidentally or deliberately.

In the event of difficulties, contact the Competition Administrator by using the **Message** button. This will be required if you wish to enter or withdraw after the 'Sign Up' has closed.
